

MANAGED TOWEL SERVICE

Professionally laundered towels provided
through Genuine Service ExcellenceSM

High-quality reusable towels for manufacturing, printing, and final wiping – delivered through our reliable managed service program.

Save time with a managed program

Experience superior quality with a cleaner, more absorbent towel

Achieve waste reduction and pollution prevention

StraightUp!™ billing ensures that program costs match your budget – there are no auto-replacement charges, unauthorized inventory changes, or hidden fees

Shop Towels

Multipurpose towels that are the perfect match for general purpose manufacturing applications involving moderate to heavy wiping of non-hazardous greases and oils. State-of-the-art laundering and unparalleled quality standards ensure you get a cleaner, more absorbent towel.

Delivered polywrapped to keep towels clean.

Towel dimensions are nominal and subject to variation as a result of laundering.

Ultra™ Red Shop Towels

Ultra absorbent, reusable shop towel for wiping grease and oil where metal chips may be present.

Size: 18×18 inches | Material: 65% cotton, 35% polyester

UltraPro™ Red and Blue Huck Towels

Premium 100% cotton huck material. Great for general cleaning applications within manufacturing environments where solvent is not present.

● Red: For use in environments where metal chips may be present

● Blue: Intended for general manufacturing environments

Size: 14×25 inches | Material: 100% cotton

ITU AbsorbTech helps EPA Wipes Rule compliance by...

- ✓ **Providing sealed** and labeled storage containers compliant with the Wipes Rules requirements.
- ✓ **Offering labels** stating EXCLUDED SOLVENT CONTAMINATED WIPES.
- ✓ **Implementing stringent** checks on no-free-liquids requirement in printer towel containers.
- ✓ **Processing towels in** our Clean Water Act and Clean Air Act permitted facilities per the Wipes Rule requirements.

Final Finish

HiTech™ Towels provide a premium microfiber finish for specialized applications. Lint Free Towels give your surfaces that final polished look. Both are designed for critical cleaning applications where residue-free results matter.

Delivered polywrapped to keep towels clean.

Towel dimensions are nominal and subject to variation as a result of laundering.

HiTech™ Towels

A high performance, virtually lint-free microfiber towel for final finishing. Not intended for solvent applications.

Size: 14×14 inches

Material: 85% polyester, 15% nylon

Lint Free Towels

Final finish print towels with little to no absorbency. Use for the final or finishing wipe.

Size: 18×18

Material: 100% polyester

Lint Free Towels

HiTech™ Towels

Food Service

ITU AbsorbTech's Bar and UltraPro™ White Huck Towels are ideal for precision cleaning in food service settings. Reusable, absorbent, and professionally laundered, they're part of a sustainable managed service that ensures consistent quality, cleanliness, and convenience.

Delivered polywrapped to keep towels clean.

Towel dimensions are nominal and subject to variation as a result of laundering.

Bar Towels

Highly absorbent terry cloth with a sewn/hemmed border. Soft, thick, washable and reusable.

Size: 15×18 inches | Material: 85% cotton, 15% polyester

UltraPro™ White Huck Towels

Strong, reusable towels with a herringbone weave made to retain its shape. They can be used on glass without leaving a residue and will not scratch cleaning surfaces.

Size: 14×25 inches | Material: 100% cotton

Save Time With a Managed Program

An ITU AbsorbTech Genuine Service Excellence team will service your account on a regular schedule.

Effortless Program

Clean towels are delivered to designated point-of-use stations in your facility. We pick up and launder soiled towels at our processing facilities which are registered to ISO 14001:2015 by Intertek.

Always Stocked

We proactively manage your inventory (with your authorization) to ensure you always have an available supply for your production floor.

On-Demand Reports

Access unique online reports to view your product usage, cost history, and solid waste reduction totals.

Training & Support

Our team will install and maintain staging areas (with drums and signage) for clean and soiled towels, conduct end-user training, and check in regularly with scheduled, in-person program reviews.

Our Customer Response Center offers customer support Mon-Fri during Central Standard Time business hours. The team can be reached at 888-729-4884 or crc@ITUAbsorbTech.com.

Superior Quality

We start with a higher quality, heavy-weight towel. And we clean them better.

Our shop towels undergo a rigorous cleaning process. We launder them in-house under ISO work instructions to ensure consistency and quality. Additionally, we employ a proprietary process to cull towels with foreign matter giving you peace of mind about their cleanliness.

Feel

Our towels are thicker, stronger and softer than typical towels. Our unique and comprehensive laundering process ensures the cleanest towel.

Smell

Take a sniff. Our towels smell cleaner.

Rub

Rub a piece of paper with our towel – it doesn't leave a residue.

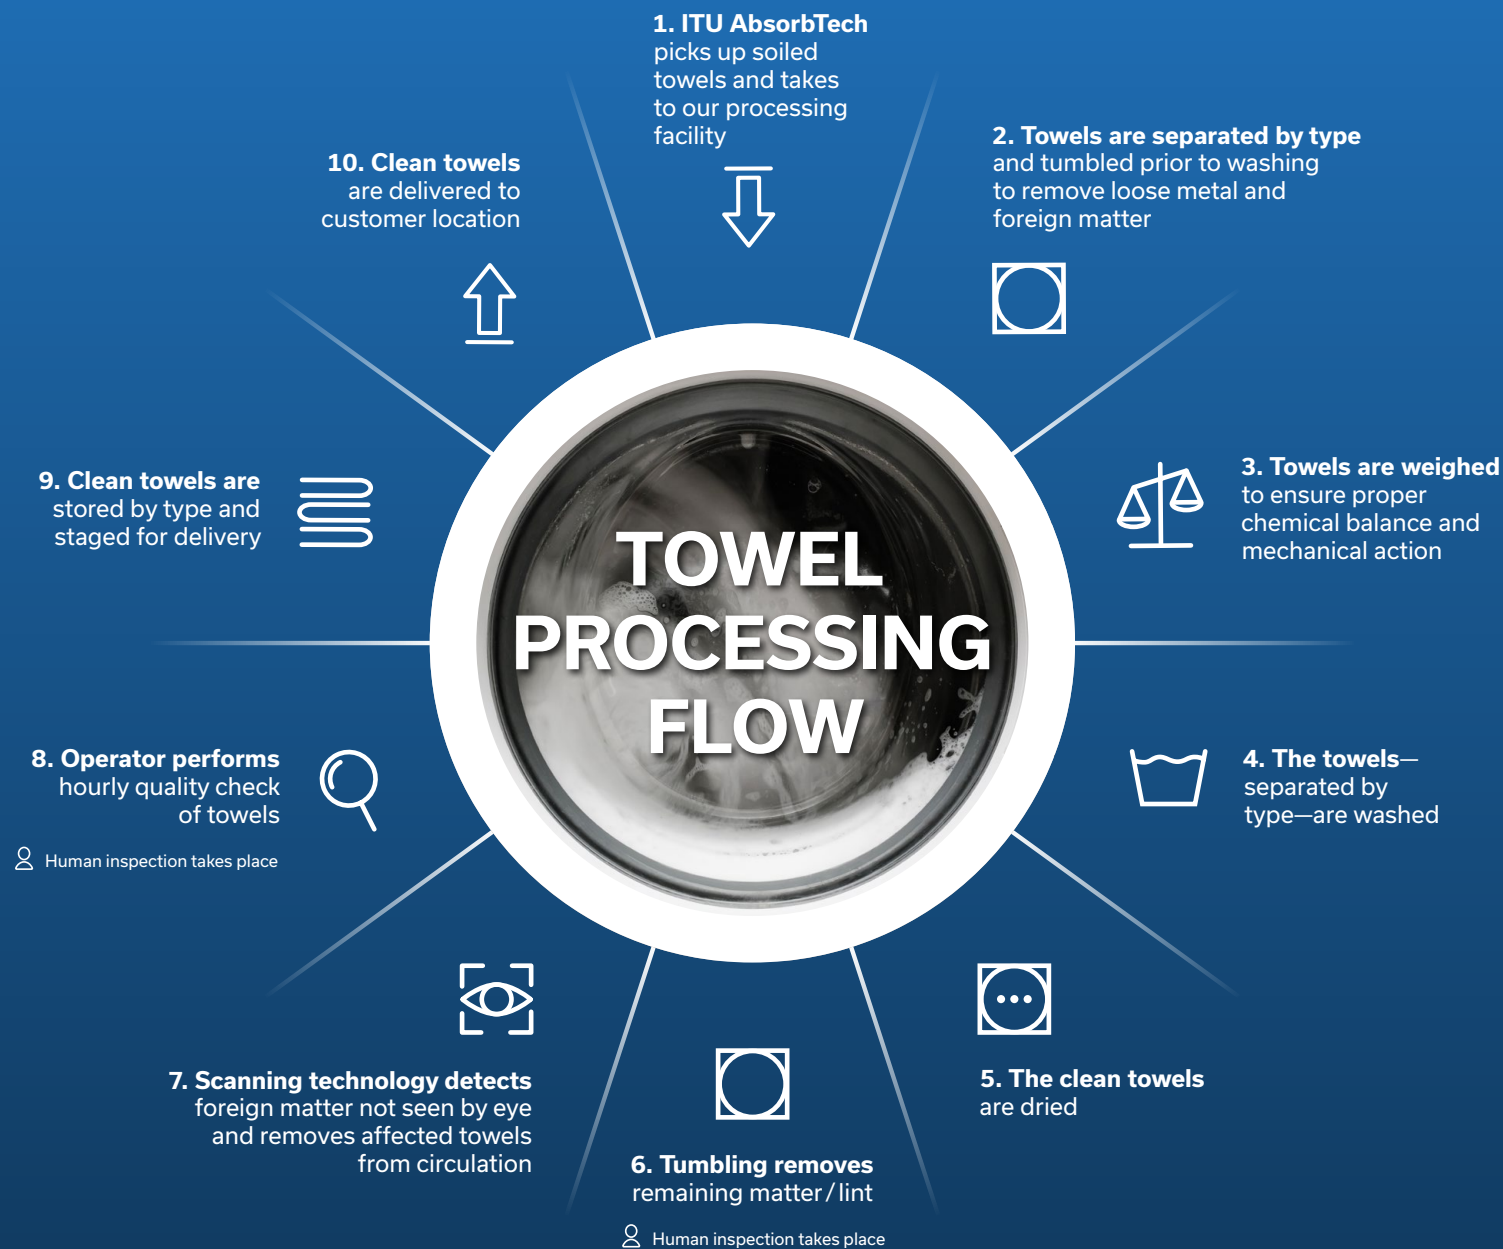

Shake

Tumbling removes remaining matter/lint. Shake our towels to see for yourself.

FIND OUT HOW WE ENSURE OUR LAUNDERED TOWELS ARE THE BEST AVAILABLE

The process shown is for Ultra™ Red Shop Towels. Ultra™ Printer Towels are processed separately from shop towels in solvent recovery dryers and weighed to ensure proper chemical balance and mechanical action.

Achieve waste reduction and pollution prevention

- Towels are laundered for reuse. Recovered solvents are recycled for use in industry.
- Waste reduction is tracked, available to customers via online reports*, and celebrated with certificates.
- Our programs support sustainability, Zero-Waste-to-Landfill and ISO 14001 goals.

*Environmental reporting is available through myAccount™, our online customer portal.

ITU AbsorbTech uses advanced solvent technology to track the volume of solvent recovered from Ultra™ Printer Towels for each customer. The solvent recovery achieves three important objectives:

- Recovers solvents for reuse rather than released into the air, water, or waste.
- Reduces facilities' air emissions significantly.
- Reduces liability through the elimination of solvent-bearing waste.

TM

StraightUp!™ Billing

StraightUp!™ billing ensures your total cost stays consistent each month with no hidden fees, unauthorized inventory changes, or automatic replacement charges.

A Better Way to Budget

Traditional towel cleaning services can have an invoice that fluctuates frequently with a "pay-as-you-go" rate based on usage.

Surprise service fees, auto replacement fees and delivery fees "muddy up" the invoice and make it difficult to budget for the complete and total cost of the program.

That's why ITU AbsorbTech has a different model. StraightUp!™ ensures a transparent and predictable bill for towel service each month.

ITU AbsorbTech also automatically sends (at no additional cost) extra towels above and beyond the pick-up count with each delivery.

Simple Easy to understand pricing, invoices, statements and reports

Honest No hidden charges, gimmicks or surprises so you can budget with assurance

Up Front Budget with assurance for the year or the entire term of your agreement

-
- Convenient invoicing options: on delivery or via email
 - Clear and easy-to-read billing and packing slips.
 - Summary of detailed reports can be emailed to reduce paperwork

Compare Towels

Our team will help you find the right towels for your applications. We are confident you'll find our programs the best in the industry. Use the chart below to learn more about our towel solutions.
